

### ADVANTAGES

1. Automatic temperature control simple operation. One key automatic constant temperature, one key start solidification. No matter winter or summer, stability is good.
2. Appearance design highest standard, material is fastidious, adopt 1.5-2.5mm galvanized iron plate, the housing case is solid and stable, no deformation. UV lamp with original Philips lamp forming.
3. Mirror is Added at the Bottom to remove the Dusts.
4. Hydraulic technique helps to open the door easily.

### MACHINE PARAMETERS

Temperature control	: Automatic
Machine area	: 2500* 1660 * 1210mm
Curing size	: 2050 * 1425mm
Running humidity	: <90%
Curing time	: 20~90mins
Electrical power	: 1200w
Working voltage	: 220v
Machine weight	: 800 Kg
