

CMT™

CMT L130 ALUMINIUM BENDING MACHINE

ADVANTAGES

1. Five axis linkage, Side rail positioning.
2. Professional for outdoor and indoor quality advertising letters, signs and lamp house, like LED aluminium letters, trimless letters, the resin luminous letters.
3. Smooth and delicate cutting, low noise, stable performance.
4. One button operation and cost-effective, is your first choice of economical and practical device.
5. Stable cutting and bending with five-axis mechanical construction - feeding, lifting, cutting and bending once forming, to ensure accurate and stable arc.

MACHINE PARAMETERS

Working principle	: Automatic	Total	: 1000W
Model	: CMT - L130	File format	: .dxf, .ai, .plt
Slot degree	: 45- 135 degree	Machine size	: 1400*1350*700mm
Bending radius	: ≥ 5 mm	Machine Weight	: 200Kg
Material width	: ≤ 130 mm	Voltage	: 220v
Material Thickness	: 0.3 - 1.2mm	Air pressure	: 0.3 - 0.8Mpa
Application Material	: Aluminium Trimcap & Trimless
